### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. Upon reconsideration by the Examiner, the finality of the last office action is withdrawn.

#### ***Amendment Entered***

2. Claims 14 and 28-37 are pending in the instant application. Claims 14 and 28 have been amended and claims 1-3, 6, 8, 15-17 and 19-27 have been canceled as requested by Applicant in the Paper filed Sept. 2, 2004.

#### ***Withdrawn Objections and Rejections***

3. Any objection or rejection of record which is not expressly repeated in this action has been overcome by Applicant's response and withdrawn.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 14 and 28-37 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 14, 28-37 are indefinite because, for example in claim 14, the claim encompasses a DNA encoding a fusion protein, recites that the linker is from about 10 to 30 amino acids in length, and then has the limitation that the DNA comprises the sequence of SEQ ID NO: 1, which encodes a linker of defined length. The DNA cannot encode a variable linker length and

Art Unit: 1646

also be a specific sequence having one linker length. Claim 28, drawn to the fusion protein, is indefinite for the same reasons, having a variable linker length and also being a protein with a specific linker length. Claims 29, 30 and 31 are also indefinite because they encompass a receptor molecule (or method of making such) comprising "all or a functional portion of" two extracellular domains of tumor necrosis factor receptors, but then also have the limitation that the molecule comprises the amino acid sequence of SEQ ID NO: 2, which consists of amino acids 1-251 of the extracellular domain of TNFR2 and is therefore a specific sequence of defined length. The "all or a functional portion of" language is also present in claims 30 and 31, parts b) and c). The other claims are indefinite for depending from claim 28.

It is believed that all pertinent arguments have been answered.

### ***Conclusion***

5. No claim is allowed.
